The Interface Financial Group named a “Military Friendly Franchise”

The Interface Financial Group is included in the “Military Friendly Franchise for 2010” list compiled by G. I. Jobs magazine. The list was created as a way to help military veterans research franchise opportunities.

Irvine, CA (June 16, 2010) – The Interface Financial Group, a franchise organization that specializes in working with small businesses to accelerate cash flow and expansion efforts, is honored to be included in the Military Friendly Franchise for 2010 list compiled by G. I. Jobs magazine. The list was compiled to help military veterans research franchise opportunities.

“Military veterans make excellent franchisees” said David Banfield, President of The Interface Financial Group, “they know how to plan and execute the plan, understand the importance of following the system, have an outstanding work ethic, and know how to be a member of the team while being able to make independent decisions. We look forward to more veterans coming to us to discuss our unique franchise opportunity,”

This recognition from G. I. Jobs magazine comes at a time when Interface has also been awarded World-Class Franchise® certification by the Franchise Research Institute, which is based on an independent survey of Interface franchisees. As with the Military Friendly Franchise status from G. I. Jobs magazine, franchisors that are awarded the World-Class Franchise certification from Franchise Research Institute represent a small but elite group of franchise organizations.
